

Over 1 kilometer  
night time visibility

*flare 200*

*flare 250*

The Flare 200 and Flare 250 emergency life saver that should be in every vehicle.

There is a recessed razor sharp seat belt cutter that allows you to cut your seat belt in the event of an emergency. Both the Flare 200 and Flare 250 comes equipped with a pointed steel head, allowing you to break glass during an emergency.

The Flare 200 and the Flare 250 each comes with LED warning lights encased in the handle to ensure you are kept safe at night when attending to your car. With the magnetic handle, you can place it on the car/trailer or truck, and the red LED can be seen from over 1 kilometre away. Both the 200 Flare and 250 Flare comes equipped with an LED torch light. The Flare 250 is a larger sized unit and comes with an added 18 white LED for your work light.
